Present position

2001-to present
Research Specialist II, Biomathematics and Bioinformatics, Howard Hughes Medical Institute, Department of Molecular Microbiology, Washington University School of Medicine, Saint Louis, Missouri, USA.

Education

2003-to present.
Genetic Epidemiology Master of Science (GEMS), Washington University School of Medicine, USA.

2001-2003.
Post doctoral: Groisman Lab, Department of Molecular Microbiology, Washington University School of Medicine, Saint Louis, Missouri, USA.

January, 2001
Ph.D. in Computer Science, Department of Computer Science and Artificial Intelligence, University of Granada, Spain.
PhD. Thesis Title: "Hierarchical Models and Methodologies for Learning Fuzzy Rule-Based Systems".
Advisors: Dr. Francisco Herrera and Dr. Oscar Cordón.

November, 1997
Master in Computer Science, Department of Computer Science, University of Buenos Aires, Argentina.

Master Thesis Title: "Fuzzy Controllers: Study and evaluation of modern methods for design and learning. Some proposals of hybrids techniques"
Advisor: Dr. Enrique Segura

February, 1993

Bachelor in Computer Science, Department of Computer Science, University of Buenos Aires.

Professional Experience and Appointments

2003-to present

Invited Professor and Ramon y Cajal Researcher, Department of Computer Science and Artificial Intelligence, University of Granada, Spain.

2001-2007

Invited Professor, Department of Computer Science, University of Buenos Aires, Argentina.

2000-2001

Assistant Professor, Department of Computer Science, University of Buenos Aires, Argentina.

1998-1999

International Fellowship, SRI International, Menlo Park, California, USA.

1994-2000

Auxiliary Professor, Department of Computer Science, University of Buenos Aires, Argentina.

1992-1997

Data Analyst, Ratto-Humphreys Calificadora de Riesgo (Rating Agency) / Canadian Bond Rating Service, Buenos Aires, Argentina.

1990-1997

Computer Systems Analysts, Ratto-Villares y Asociados (Firm of public accountants) / Member of ACPA International (Affiliated Conference of Practicing Accountants), Buenos Aires, Argentina.

Teaching

2005-2007

Introduction to Computational Biology

(http://decsai.ugr.es/index.php?p=info_asigatura&cod_asigatura=202).

Department of Computer Science and Artificial Intelligence, University of Granada, Spain

2006-2007

Applications of Bioinformatics

Master on Soft Computing and Intelligent Systems

(<http://docto-si.ugr.es/master/>)

Department of Computer Science and Artificial Intelligence, University of Granada, Spain.

2006-2007

Bioinformatics

Master on Computation and Intelligent Systems. Applications to Internet and E-commerce

(<http://docto-si.ugr.es/moodle/course/category.php?id=4>)

Department of Computer Science and Artificial Intelligence, University of Granada, Spain,
and Universidad Tecnológica Metropolitana del Estado de Chile.

2007-2008

Interaction Networks and Array Analysis

Master on Computational Biotechnology

(<http://biolab.uspceu.com/CompBiotech/>).

University of San Pablo, Madrid, Spain.

2002-2004

Master Program in Medical Molecular Biology.

University of Buenos Aires, Argentina.

2003-2005

Master Program in Data Mining.

University of Buenos Aires, Argentina

2001-2007

Introduction to Computational Biology

(<http://www.dc.uba.ar/people/materias/biocomp/>).

Computer Science Department, University of Buenos Aires, Argentina

2000-2001

Machine Learning
(<http://www.dc.uba.ar/people/materias/aa/homepage.html>).
Computer Science Department, University of Buenos Aires, Argentina

1997-2000
Computational Paradigms
Computer Science Department, University of Buenos Aires, Argentina

1995-1997
Functional Programming
Computer Science Department, University of Buenos Aires, Argentina

1994-1995
Introduction to Fuzzy Set Theory
Computer Science Department, University of Buenos Aires, Argentina

PhD. thesis advisor

2005
Rocío C. Romero Zaliz
Recognizing gene regulatory profiles by using multiobjective genetic algorithms
Computer Science and Artificial Intelligence Department, University of Granada, Spain.

PhD. students

Cristina Rubio Escudero
Identifying gene profiles by reverse problem solving: from grouping gene expressions to combining microarray analysis methods"
Computer Science and Artificial Intelligence Department, University of Granada, Spain.

Oscar Marcos Harari
Predicting prokaryotic and eukaryotic gene networks by fusing domain knowledge with conceptual clustering algorithms
Computer Science and Artificial Intelligence Department, University of Granada, Spain.

Patricio Yankelevich
Integrating genomic, proteomic and transcriptomic information by using conceptual clustering techniques
Centro de Biología Molecular, Universidad Autónoma de Madrid, Spain

Luis Herrera

Multiobjective web mining: towards identifying biologicaly meaningful information
Universidad Metropolitana de Chile, Chile – University of Granada, Spain.

Master thesis advisor

2005

Juan Pablo Grassi

A Conceptual Clustering Proposal to Identify Gene Regulatory Profiles
Computer Science Department, University of Buenos Aires, Argentina

2005

Marcelo Santos

Learning Robust Dynamic Networks in Bacterial Genomes
Computer Science Department, University of Buenos Aires, Argentina

2004

Patricio Traverso

An Adaptive Approach to Infer Realistic, Robust and Flexible Genetic Networks
Computer Science Department, University of Buenos Aires, Argentina

2003

Viviana Cotik

A Conexionist Approach to Discover and Predict Prokaryotic Promoters
Computer Science Department, University of Buenos Aires, Argentina

2003

Damian D'Onia

Genetic Circuits: Identification of Regulatory Relationships from Temporal Series derived
from Microarray Gene Expression
Computer Science Department, University of Buenos Aires, Argentina

2002

Pablo Pastorino

Learning Classifier Systems for On-line Modeling Investment Strategies
Computer Science Department, University of Buenos Aires, Argentina

2001

Rocío C. Romero Zaliz

Using Qualitative Object Description in DNA Sequencing of Trypanosome Cruzi
Computer Science Department, University of Buenos Aires, Argentina

2001

Gabriel Bulfon

Designing Evolutive Algorithms for Extracting Investment Strategies
Computer Science Department, University of Buenos Aires, Argentina

Research Projects/Grants

2006-2009

Project title: Identification of complex information in Biology: from data collections to knowledge-based networks (TIN2006-12879)

Finance provider: Programa Nacional de Cooperación Internacional de Ciencia y Tecnología, Spain

Participating entities: M4M Laboratory, Dept. of Computer Science and Artificial Intelligence, E.T.S. de Ingeniería Informática, University of Granada, Spain.

Head of research: Dr. Igor Zvir

Number of researchers taking part: 4

2005-2007

Project title: Extracting knowledge from genetic regulatory processes by using microarrays (BIO2004-0270-E (a7))

Finance provider: Programa Nacional de Cooperación Internacional de Ciencia y Tecnología, Spain

Participating entities: Dept. of Computer Science and Artificial Intelligence, E.T.S. de Ingeniería Informática, University of Granada, Spain; Department of Molecular Microbiology, Howard Hughes Medical Institute, Washington University School of Medicine, St. Louis, MO, USA; Cellular Injury and Adaptation Laboratory, Washington University School of Medicine, St. Louis, MO, USA; and Ctr. for High Performance Computing, University of Utah, Salt Lake City, UT, USA.

Head of research: Dr. Igor Zvir

Number of researchers taking part: 7

2003-2006

Project title: Hybridizing Evolutionary Computation and Ant Colony Optimization. Applications to Fuzzy Rule Learning and Bioinformatics Problems

Finance provider: Convocatoria de ayudas de Proyectos de Investigación Científica y Desarrollo Tecnológico (2003)

Participating entities: Dept. of Computer Science and Artificial Intelligence, E.T.S. de Ingeniería Informática, University of Granada, Spain

Head of research: Dr. Oscar Cordón García

Number of researchers taking part: 6

2003-2006

Project title: Optimization Research Problems and Computational Biology

Participating entities: Dept. of Computer Science, University of Buenos Aires, Argentina

Finance provider: PME 84

Head of research: Dr. Guillermo Marshall

Number of researchers taking part: 10

2001-2002

Project title: Clusterización y modelación de Perfiles de Expresión génica utilizando Tecnología Difusa

Finance provider: Ministerio de Ciencia y Tecnología, para proyectos de Investigación científica y desarrollo tecnológico. Programa: Programas nacionales de I+D orientada (Spain)

Participating entities: Dept. of Computer Science and Artificial Intelligence, E.T.S. de Ingeniería Informática, University of Granada, Spain

Head of research: Armando Blanco Morón

Number of researchers taking part: 6

Project title: Models and Techniques for Combinatorial Optimization Problems

2004-2007

Finance provider: UBACYT X212

2002-2005

Finance provider: PICT

2001-2004

Finance provider: UBACYT - X036

Participating entities: University of Buenos Aires, School of Science, Computer Science Department

Head of research: Lic. Irene Loiseau

Number of researchers taking part: 8

2001-2002

Project title: Models for Risk Analisys in the Argentinian Market

Finance provider: SECYT – UBACYT - E031

Participating entities: University of Buenos Aires, School of Science, School of Economics

Head of research: Dr. Maria Teresa Casparri (FCE - UBA)

Number of researchers taking part: 5

1998-2000

Project title: Neural Networks: A connexionist view of the planning tasks and trayectories generation problems in robotics

Finance provider: SECYT - UBACYT

Participating entities:

Head of research: Prof. Hugo Scolnik

Number of researchers taking part: 5

Scholarships

2003

Programa Ramón y Cajal, University of Granada, Spain.

1998-2000

AECI – Agencia Española de Cooperación Internacional.

1998-2000

FOMEC – Programa de Reforma de Educación Superior, U.B.A. - BIRF.

Awards

2006

HHMI for five-year distinguished employees

2002

Best Ph.D. Thesis in Computer Science, University of Granada, Spain.

Professional activities/Membership

Board editor and/or reviewer in the following journals and conferences:

- Bioinformatics
- IEEE Transactions
- Mathware and Soft Computing
- Fuzzy Sets and Systems, Elsevier Science.

- International Journal of Approximate Reasoning, Elsevier Science.
- Congreso Español de Algoritmos Evolutivos y Bioinspirados (AEB).
- Online World Conference on Soft Computing in Industrial Applications, EvoNet.
- Argentinian Symposium on Artificial Intelligence (ASAI).
- International Association for Fuzzy Set Management and Economy (SIGEF)
- System Analysis Group, Washington University, St. Louis, Missouri, USA

Ad hoc and special reviewer

2005-to present

National Science Foundation (NSF)

2006-to present

Consejo Nacional de Investigaciones Científicas y Técnicas de Argentina (CONICET)

Special Sessions Organizer of International Conferences

2007

Bioinformatics, SCSC07, San Diego, USA

(<http://www.softconf.com/scs/SCSC07/>)

Soft Computing in Bioinformatics and Computational Biology, FUZZ IEEE

Imperial College, London, UK

(<http://www.fuzzieee2007.org/specialsessions2.php#S25>)

Invited seminars

2006

Fusion of domain knowledge for dynamic learning in transcriptional networks
 ECMI, Madrid
 Host: José María Carazo

2005

Computational and experimental analysis of bacterial regulatory circuits/Identifying gene profiles by reverse problem solving: from grouping gene expressions to combining microarray analysis methods

Dpt. Molecular Biophysics, German Cancer Research Center, Heidelberg, Germany

Host: Dr. Coral del Val

Analysis of differentially-regulated genes within a regulatory network by gps genome navigation

National Center for Biotechnology. CNB-CSIC

Host: Alfonso Valencia

Regulatory networks discovered by GPS genome navigation/A multi-objective evolutionary conceptual clustering methodology for gene annotation from networking databases

Ctr. for High Performance Computing, University of Utah, Salt Lake City, Utah, USA

Host: Julio Facelli

2004

Boolean Networks emerging from Microarray

System Analysis Group, Washington University, St. Louis, Missouri, USA

Host: Bijoy Ghosh

Dissecting regulatory networks by GPS genome navigation / Promoter binding dynamics reveals architecture of small bacterial regulatory networks / T-test, Anova, Manova, ...

How to solve it?

Universidad del País Vasco - San Sebastian, Spain

Host: Pedro Larrañaga Múgica

Dissecting regulatory networks by GPS genome navigation

Washington University, School of Medicine, ST. Louis, Missouri, USA

Host: Eduardo A. Groisman

Analysis and Modeling Aspects of Endotoxin time series data ()

Glue Grant Meeting, Chicago, Illinois, USA

(In collaboration with Ashoka Polpitiya, Bijoy Ghosh, and Perren Cobb)

Host: Glue Grant – Computational Analysis and Modeling Core

2003

Mining into the gene regulation problem

Red Iberoamericana de Bioinformática (RIB), Buenos Aires, Argentina

Host: Ricardo Baeza-Yates

2001

Qualitative Object Description in the Stock Market
Perceptual Dynamics Laboratory, RIKEN Brain Science Institute, Japan
Host: Cees van Leeuwen

2000

Intelligent Data Analysis in Actuarial Science
School of Economic Science, University of Buenos Aires Argentina.
Host: Maria Teresa Casparri

1999

Automated qualitative description and annotation of complex objects
Berkeley Initiative in Soft Computing (BISC)
Computer Science Division Department of Electrical Engineering and Computer Sciences
University of California Berkeley, USA
Host: Lotfi A. Zadeh

Qualitative Object Description: Initial Reports of the Exploration of the Frontier
Artificial Intelligence Center, SRI International, Menlo Park, California, USA
